I enjoy working on every part of a product, from the ideas to the dirty work of constructing it. I've been a co-founder in two startups so that's my sauce. It's fun to be in the bloody trenches.

Technical Skills

Likes: reactjs node.js javascript mongodb postgresql amazon-web-services express typescript next.js gatsby css
Dislikes: java php ruby .net python

Experience

Full Stack Developer – <u>SweatWorks</u>   *Sep 2019 → Current*
